AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims

1. (cancelled)
2. (cancelled)
3. (previously presented) A device to prevent superheating of a liquid within a microwave oven, said device comprising:

a transducer positionable on a surface within the microwave oven wherein the surface supports a container for the liquid, said transducer responsive to a source of energy such that said transducer vibrates the surface thereby nucleating and allowing the liquid to boil such that the liquid is prevented from superheating; and

wherein said transducer is capable of being energized by a pulsed impulse with sufficient amplitude to boil the liquid.
